## **Hotel Madison Taking Reservations for May 2018**

*Harrisonburg's First Full-Service Hotel & Conference Center Will Open Spring 2018*

Harrisonburg, VA – The construction of Hotel Madison will be completed in the spring of 2018, and its pre-opening website has begun accepting reservations for arrivals beginning May 1, 2018.

“We are very excited to announce that Hotel Madison has launched its new website ([www.hotelmadison.com](http://www.hotelmadison.com)) and is now accepting online reservations,” says Jennifer Sodikoff, Marketing Manager for the Hotel Madison. “Because we have been looking forward to offering guests the Hotel Madison experience, we are extremely pleased to now be able to help plan their stay.”

The Hotel Madison and Shenandoah Valley Conference Center will have 230 guestrooms, approximately 21,000 square feet of meeting and event space, a full-service farm-to-table restaurant, an indoor pool, and a fitness center. The hotel will host regional, state and national conferences, as well as corporate and social events.

“Hotel Madison is positioned to benefit guests visiting James Madison University, the City of Harrisonburg, Rockingham County and the surrounding Shenandoah Valley. This project has been years in the making and will help our community attract new visitors to the area, many of whom are currently going elsewhere due to lack of facilities to accommodate their business” says Eddie Bumbaugh, Director of Public Relations for Hotel Madison. “We see the Hotel’s role as host, enabling people from all over the region and country to enjoy the best our community has to offer in terms of attractions, events and culinary experiences. Many people with the City of Harrisonburg and James Madison University have been instrumental partners in the planning and opening of this property. It seems very fitting to welcome guests just prior to JMU’s 2018 Spring Commencement.”
